

**ANNUAL
REPORT 2016**
THE OITA BANK,LTD.

OITA BANK PROFILE

The Oita Bank, Ltd., was founded in 1893 in Oita Prefecture, Kyushu, in the southwest of the Japanese archipelago. For more than a century, the Bank has provided outstanding financial services to individual and corporate clients, contributing significantly to the economic growth and prosperity of Oita Prefecture and the greater Kyushu region.

In Oita Prefecture, there was a steady stream of capital investment from some of the world's most prominent enterprises in the high-tech and automotive industries, which has had a major impact on the economy of the prefecture. At the same time, the prefecture continues to reinforce infrastructure to support its development as a hub of international business.

As the leading bank native to Oita Prefecture, the Oita Bank strives to strengthen its management structure and enhance financial services, thereby contributing to the region's prosperity.

Best Quality—Medium-Term Management Plan 2016—

Oita Bank sincerely appreciates the continued patronage of all our stakeholders.

On April 1, 2016, Shoji Himeno was appointed Chairman, Tomiichiro Goto was appointed President and a new management structure was launched.

Since its founding in 1893, the Oita Bank has continued to operate as a regional financial institution built on solid foundations. We extend our warmest thanks to all our stakeholders for your support over the years.

In the Medium-Term Management Plan 2016 (three-year period), launched under a new management structure in April 2016, to take over and advance community-based strategies implemented up to now, the Bank will unite to engage in various measures focused on Creating Shared Value (CSV) as a fundamental policy under its basic theme “Best Quality.”

The Bank has a symbiotic relationship with regional communities; if the communities do not develop, neither will the Bank. The Bank aims to grow and develop along with regional communities by creating shared value through proactive engagement in the resolution of numerous issues facing regional communities, including declining populations and sluggish growth in the number of companies.

FY2015 Consolidated Operating Performance

Deposits

As of March 31, 2016, total deposits, including negotiable certificates of deposit, amounted to ¥2,744.4 billion, up ¥65.5 billion from a year earlier, owing to an increase in individual deposits and corporate deposits.

Loans

Total loans outstanding amounted to ¥1,788.2 billion on March 31, 2016, up ¥8.3 billion from one year earlier, owing to an increased volume of loans to businesses and individuals within the prefecture.

Marketable Securities

Despite a reduction in stock valuation gains due to falling stock prices, as a result of increases in corporate bonds and investment trusts, etc., owing to portfolio rebalancing, marketable securities on March 31, 2016, totaled ¥1,102.0 billion, ¥2.4 billion higher than the previous fiscal year-end.

Foreign Exchange

Foreign exchange transactions, including international trade transactions, overseas remittances and foreign currency deposits, totaled US\$2,010 million, US\$103 million higher than the previous fiscal year-end.

Earnings

Ordinary profit was down ¥1,734 million year on year, to ¥60,092 million. This was due to growth in interest income from increased interest on loans and discounts and gains on the sale of shares as well

as higher fees and commissions. Despite increased other operating income, decreases from reversal of reserve for possible loan losses resulted in a decrease in other income. Ordinary income fell ¥1,873 million year on year, to ¥14,573 million. Profit attributable to owners of the parent advanced ¥72 million, to ¥9,736 million, due to a decrease in income taxes, etc.

Dividend Policy

In due consideration of its responsibility to the public as a financial institution, the Bank's fundamental dividend policy is stable and continuous profit distribution. To this end, we are striving to strengthen its financial structure by reinforcing the long-term stability of its management base, improving management efficiency and building sufficient reserves.

In FY2015, the Bank's annual dividend was ¥7.00 per share (including an interim dividend per share of ¥3.50).

Capital Adequacy Ratio

As of March 31, 2016, the Bank's capital adequacy ratio was 10.21% on a non-consolidated basis and 10.84% on a consolidated basis, both of which easily exceed the domestic standard of 4%.

For customers to be able to do transactions with us with peace of mind, we will strive to further increase our capital adequacy and strengthen our management structure.

Credit Rating

On September 29, 2000, the Bank attained an “A+” long-term preferred debt rating from Japan Credit Rating Agency, Ltd. (JCR), and the Bank has maintained that rating to the present.

Given that “A+” is the highest of the three kinds of “A,” the JCR rating attests to the stability and soundness of the Oita Bank.

Conclusion

Oita Bank recognizes its responsibilities as a regional bank with Oita Prefecture as its base of operations. Accordingly, we work proactively to contribute to regional communities through our banking operations.

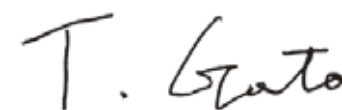

We ask our stakeholders for their understanding and support of the Bank's endeavors.

August 2016

Notes to Consolidated Financial Statements

THE OITA BANK, LTD. and Consolidated Subsidiaries
Year Ended March 31, 2016

1 BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS

The accompanying consolidated financial statements of THE OITA BANK, LTD. (the “Bank”) and its nine consolidated subsidiaries have been prepared in accordance with the provisions set forth in the Japanese Financial Instruments and Exchange Act, its related accounting regulations and the Enforcement Regulation for the Banking Law of Japan (the “Banking Law”), and in accordance with accounting principles generally accepted in Japan, which are different in certain respects as to the application and disclosure requirements of International Financial Reporting Standards.

In preparing these consolidated financial statements, certain reclassifications and rearrangements have been made to the consolidated financial statements issued domestically in order to present them in a form which is more familiar to readers outside Japan. In addition, certain reclassifications have been made in the 2015 consolidated financial statements to conform to the classifications used in 2016.

The consolidated financial statements are stated in Japanese yen, the currency of the country in which the Bank is incorporated and operates. Amounts of less than one million yen have been omitted in the accompanying consolidated financial statements as permitted by the Japanese Financial Instruments and Exchange Act. Consequently, the totals shown in the accompanying consolidated financial statements do not necessarily agree with the sums of the individual amounts.

The translation of Japanese yen amounts into U.S. dollar amounts are included solely for the convenience of readers outside Japan and have been made at the rate of ¥112.68 to \$1, the approximate rate of exchange at March 31, 2016. Such translation should not be construed as representation that the Japanese yen amounts could be converted into U.S. dollars at that or any other rate.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Consolidation - The consolidated financial statements include the accounts of the Bank and its nine significant subsidiaries (together, “the Companies”). The fiscal periods of all consolidated subsidiaries end on March 31.

Under the control and influence concepts, those companies in which the Bank, directly or indirectly, is able to exercise control over operations are fully consolidated.

Investments in the remaining unconsolidated subsidiaries are stated at cost. If the equity method of accounting had been applied to the investments in these companies, the effect on the accompanying consolidated financial statements would not be material.

All significant intercompany balances and transactions have been eliminated in consolidation. All material unrealized profit included in assets resulting from transactions within the Companies is also eliminated.

b. Business Combinations - In October 2003, the Business Accounting Council (the “BAC”) issued a Statement of Opinion, “Accounting for Business Combinations,” and in December 2005, the Accounting Standards Board of Japan (the “ASBJ”) issued ASBJ Statement No. 7, “Accounting Standard for Business Divestitures” and ASBJ Guidance No. 10, “Guidance for Accounting Standard for Business Combinations and Business Divestitures.”

In December 2008, the ASBJ issued a revised accounting standard for business combinations, ASBJ Statement No. 21, “Accounting Standard for Business Combinations.” Major accounting changes under the revised accounting standard are as follows: (1) The revised standard requires accounting for business combinations only by the purchase method. As a result, the pooling-of-interests method of accounting is no longer allowed. (2) The previous accounting standard required research and development costs to be charged to income as incurred. Under the revised standard, in-process research and development (IPR&D) acquired in the business combination are capitalized as an intangible asset. (3) The previous accounting standard provided for a bargain purchase gain (negative goodwill) to be systemati-

cally amortized over a period not exceeding 20 years. Under the revised standard, the acquirer recognizes the bargain purchase gain in profit or loss immediately on the acquisition date after reassessing and confirming that all of the assets acquired and all of the liabilities assumed have been identified after a review of the procedures used in the purchase price allocation.

In September 2013, the ASBJ issued revised ASBJ Statement No. 21, “Accounting Standard for Business Combinations,” revised ASBJ Guidance No. 10, “Guidance on Accounting Standards for Business Combinations and Business Divestitures,” and revised ASBJ Statement No. 22, “Accounting Standard for Consolidated Financial Statements.” Major accounting changes are as follows:

(a) *Transactions with noncontrolling interest*—A parent’s ownership interest in a subsidiary might change if the parent purchases or sells ownership interests in its subsidiary. The carrying amount of noncontrolling interest is adjusted to reflect the change in the parent’s ownership interest in its subsidiary while the parent retains its controlling interest in its subsidiary. Under the previous accounting standard, any difference between the fair value of the consideration received or paid and the amount by which the noncontrolling interest is adjusted is accounted for as an adjustment of goodwill or as profit or loss in the consolidated statement of income. Under the revised accounting standard, such difference is accounted for as capital surplus as long as the parent retains control over its subsidiary.

(b) *Presentation of the consolidated balance sheet*—In the consolidated balance sheet, “minority interest” under the previous accounting standard is changed to “noncontrolling interest” under the revised accounting standard.

(c) *Presentation of the consolidated statement of income*—In the consolidated statement of income, “income before minority interest” under the previous accounting standard is changed to “net income” under the revised accounting standard, and “net income” under the previous accounting standard is changed to “net income attributable to owners of the parent” under the revised accounting standard.

(d) *Provisional accounting treatments for a business combination*—If the initial accounting for a business combination is incomplete by the end of the reporting period in which the business combination occurs, an acquirer shall report in its financial statements provisional amounts for the items for which the accounting is incomplete. Under the previous accounting standard guidance, the impact of adjustments to provisional amounts recorded in a business combination on profit or loss is recognized as profit or loss in the year in which the measurement is completed. Under the revised accounting standard guidance, during the measurement period, which shall not exceed one year from the acquisition, the acquirer shall retrospectively adjust the provisional amounts recognized at the acquisition date to reflect new information obtained about facts and circumstances that existed as of the acquisition date and that would have affected the measurement of the amounts recognized as of that date. Such adjustments shall be recognized as if the accounting for the business combination had been completed at the acquisition date.

(e) *Acquisition-related costs*—Acquisition-related costs are costs, such as advisory fees or professional fees, which an acquirer incurs to effect a business combination. Under the previous accounting standard, the acquirer accounts for acquisition-related costs by including them in the acquisition costs of the investment. Under the revised accounting standard, acquisition-related costs shall be accounted for as expenses in the periods in which the costs are incurred.

The above accounting standards and guidance for (a) transactions with noncontrolling interest, (b) presentation of the consolidated balance sheet, (c) presentation of the consolidated statement of income, and (e) acquisition-related costs are effective for the beginning of annual periods beginning on or after April 1, 2015. Earlier application is permitted from the begin-

ning of annual periods beginning on or after April 1, 2014, except for (b) presentation of the consolidated balance sheet and (c) presentation of the consolidated statement of income. In the case of earlier application, all accounting standards and guidance above, except for (b) presentation of the consolidated balance sheet and (c) presentation of the consolidated statement of income, should be applied simultaneously.

Either retrospective or prospective application of the revised accounting standards and guidance for (a) transactions with noncontrolling interest and (e) acquisition-related costs is permitted. In retrospective application of the revised standards and guidance, the accumulated effects of retrospective adjustments for all (a) transactions with noncontrolling interest and (e) acquisition-related costs which occurred in the past shall be reflected as adjustments to the beginning balance of capital surplus and retained earnings for the year of the first-time application. In prospective application, the new standards and guidance shall be applied prospectively from the beginning of the year of the first-time application.

The revised accounting standards and guidance for (b) presentation of the consolidated balance sheet and (c) presentation of the consolidated statement of income shall be applied to all periods presented in financial statements containing the first-time application of the revised standards and guidance.

The revised standards and guidance for (d) provisional accounting treatments for a business combination are effective for a business combination which occurs on or after the beginning of annual periods beginning on or after April 1, 2015. Earlier application is permitted for a business combination which occurs on or after the beginning of annual periods beginning on or after April 1, 2014.

The Bank applied the revised accounting standards and guidance for (a) transactions with noncontrolling interest, (b) presentation of the consolidated balance sheet, (c) presentation of the consolidated statement of income, and (e) acquisition-related costs above, effective April 1, 2015, and (d) provisional accounting treatments for a business combination above for a business combination which occurred on or after April 1, 2015. The revised accounting standards and guidance for (a) transactions with noncontrolling interest and (e) acquisition-related costs were applied prospectively.

With respect to (b) presentation of the consolidated balance sheet and (c) presentation of the consolidated statement of income, the applicable line items in the 2015 consolidated financial statements have been accordingly reclassified and presented in line with those in 2016.

In the consolidated statement of cash flows for the year ended March 31, 2016, cash flows for purchases or sales of ownership interests in a subsidiary without a change in consolidation scope are presented under financing activities, and cash flows for acquisition-related costs are presented under operating activities.

As a result, operating income and income before income taxes for the year ended March 31, 2016, decreased by ¥3,023 million (\$26,828 thousand) and capital surplus at March 31, 2016, increased by ¥3,023 million (\$26,828 thousand).

For the effects on per share information, please refer to “Note 24. NET INCOME PER SHARE.”

- c. **Cash and Cash Equivalents** - For the purpose of reporting cash flows, cash and cash equivalents represent cash and amounts due from the Bank of Japan.
- d. **Trading Account Securities** - Trading account securities, which are held for the purpose of earning capital gains in the near term, are reported at fair value and the related unrealized gains and losses are included in earnings. The cost of trading account securities sold is determined by the moving-average method.
- e. **Investment Securities and Money Held in Trust** - All applicable securities are classified and accounted for, depending on management’s intent, as follows:
 - (i) held-to-maturity debt securities, which are expected to be held to maturity with the positive intent and ability to hold to maturity are reported at

amortized cost, and (ii) available-for-sale securities, which are not classified as either of trading account securities or held-to-maturity debt securities, are reported at fair value, with unrealized gains and losses, net of applicable taxes, reported in a separate component of equity. The cost of available-for-sale securities sold is determined based on the moving-average method.

Nonmarketable available-for-sale securities are stated at cost or amortized cost determined by the moving-average method.

For other than temporary declines in fair value, investment securities are reduced to net realizable value by a charge to income.

Securities managed through money held in trust accounts are reported at fair value and the related unrealized gains and losses are included in earnings.

- f. **Premises and Equipment** - Premises and equipment are stated at cost less accumulated depreciation. Depreciation of premises and equipment is principally computed using the declining-balance method over the estimated useful lives of the assets and depreciation of leased premises and equipment is provided on the straight-line method over the lease periods.
- g. **Software** - Cost of computer software obtained for internal use is amortized using the straight-line method over the estimated useful lives of five years.
- h. **Long-Lived Assets** - The Companies review their long-lived assets for impairment whenever events or changes in circumstance indicate the carrying amount of an asset or asset group may not be recoverable. An impairment loss is recognized if the carrying amount of an asset or asset group exceeds the sum of the undiscounted future cash flows expected to result from the continued use and eventual disposition of the asset or asset group. The impairment loss would be measured as the amount by which the carrying amount of the asset exceeds its recoverable amount, which is the higher of the discounted cash flows from the continued use and eventual disposition of the asset or the net selling price at disposition.
- i. **Land Revaluation** - Under the “Law of Land Revaluation,” the Bank elected a one-time revaluation of its own-use land to a value based on real estate appraisal information as of March 31, 1998.

The resulting land revaluation excess represents unrealized appreciation of land and is stated, net of income taxes, as a component of equity. There was no effect on the statement of income. Continuous readjustment is not permitted unless the land value subsequently declines significantly such that the amount of the decline in value should be removed from the land revaluation excess account and related deferred tax liabilities.

As March 31, 2016 and 2015, the carrying amount of the land after the above one-time revaluation exceeded the market value by ¥12,073 million (\$107,144 thousand) and ¥12,078 million, respectively.
- j. **Foreign Currency Items** - All assets and liabilities denominated in foreign currencies are translated into Japanese yen at the current exchange rates at each balance sheet date.
- k. **Reserve for Possible Loan Losses** - The Bank determines the amount of the reserve for possible loan losses by means of management’s judgment and assessment of future losses based on the self-assessment system. This system reflects past experience of credit losses, possible credit losses, business and economic conditions, the character, quality and performance of the portfolio, and other pertinent indicators.

The Bank implemented the self-assessment system for its asset quality. The quality of all loans are assessed by branches and the credit supervisory division with a subsequent audit by the Bank’s asset review and inspection division in accordance with the Bank’s policy and rules for self-assessment of asset quality.

The Bank has established a credit rating system under which its customers are classified into five categories. The credit rating system is used for self-assessment of asset quality. All loans are classified into five categories for self-assessment purposes such as “normal,” “caution,” “possible bankruptcy,” “virtual bankruptcy” and “legal bankruptcy.”

Reserve for possible loan losses is calculated based on the actual past loss ratio for normal and caution categories, and the fair value of the collateral

for collateral-dependent loans and other factors of solvency including value of future cash flows for other self-assessment categories. For loans such as possible bankruptcy, the reserve for possible loan losses is provided for in an amount deemed necessary to cover possible losses on loans considering the customer's solvency and other factors, after the estimated fair value of the collateral real estate or guaranteed amount has been deducted. For loans such as virtual bankruptcy or legal bankruptcy, the reserve for possible loan losses is provided based upon the loan amount, after the estimated fair value of the collateral real estate or guaranteed amount has been deducted.

In addition, for loans which were mainly classified into possible bankruptcy and restructured loans as defined in Note 5 below, if the exposure to an obligor exceeds a certain specific amount and if future cash flows of the principal and interest can be reasonably estimated, the discounted cash flow method is used to calculate the reserve for possible loan losses, under which method the reserve is determined as the difference between the book value of the loan and the present value of future cash flows discounted using the contractual interest rate before the loan was classified as one of the above loans.

The consolidated subsidiaries determine the amount of the reserve for possible loan losses by a comparable self-assessment system as the Bank.

- l. Retirement and Pension Plans** - The Bank has a contributory funded pension plan and an unfunded retirement benefit plan. Consolidated subsidiaries have unfunded retirement benefit plans. The amount of liability for employees' retirement benefits is determined based on the projected benefit obligations and the pension assets at the balance sheet date. Prior service cost is amortized using the straight-line method over ten years. Net actuarial gain or loss is amortized using the straight-line method over ten years commencing from the next fiscal year of occurrence.

In May 2012, the ASBJ issued ASBJ Statement No. 26, "Accounting Standard for Retirement Benefits" and ASBJ Guidance No. 25, "Guidance on Accounting Standard for Retirement Benefits," which replaced the accounting standard for retirement benefits that had been issued by the BAC in 1998 with an effective date of April 1, 2000, and the other related practical guidance, and were followed by partial amendments from time to time through 2009.

- (a) Under the revised accounting standard, actuarial gains and losses and past service costs that are yet to be recognized in profit or loss are recognized within equity (accumulated other comprehensive income), after adjusting for tax effects, and any resulting deficit or surplus is recognized as a liability (liability for retirement benefits) or asset (asset for retirement benefits).
- (b) The revised accounting standard does not change how to recognize actuarial gains and losses and past service costs in profit or loss. Those amounts are recognized in profit or loss over a certain period no longer than the expected average remaining service period of the employees. However, actuarial gains and losses and past service costs that arose in the current period and have not yet been recognized in profit or loss are included in other comprehensive income, and actuarial gains and losses and past service costs that were recognized in other comprehensive income in prior periods and then recognized in profit or loss in the current period, are treated as reclassification adjustments (see Note 14).
- (c) The revised accounting standard also made certain amendments relating to the method of attributing expected benefit to periods, the discount rate, and expected future salary increases.

This accounting standard and the guidance for (a) and (b) above are effective for the end of annual periods beginning on or after April 1, 2013, and for (c) above are effective for the beginning of annual periods beginning on or after April 1, 2014, or for the beginning of annual periods beginning on or after April 1, 2015, subject to certain disclosure in March 2015, all with earlier application being permitted from the beginning of annual periods beginning on or after April 1, 2013. However, no retrospective application of this accounting standard to consolidated financial statements in prior periods is required.

The Companies applied the revised accounting standard and guidance for retirement benefits for (a) and (b) above, effective March 31, 2014, and for (c) above, effective April 1, 2014.

With respect to (c) above, the Bank changed the method of attributing the expected benefit to periods from a straight-line basis to a benefit formula basis, the method of determining the discount rate from using the period which approximates the expected average remaining service period to using a single weighted average discount rate reflecting the estimated timing and amount of benefit payment, and recorded the effect of (c) above as of April 1, 2014, in retained earnings. As a result, retained earnings as of April 1, 2014, increased by ¥355 million.

Retirement allowances for directors and Audit & Supervisory Board members of consolidated subsidiaries are recorded as a liability at the amount that would be required if all directors and Audit & Supervisory Board members retired at the balance sheet date.

- m. Stock Options** - In December 2005, the ASBJ issued ASBJ Statement No. 8, "Accounting Standard for Stock Options" and related guidance. The new standard and guidance are applicable to stock options newly granted on and after May 1, 2006. This standard requires companies to measure the cost of employee stock options based on the fair value at the date of grant and recognize compensation expense over the vesting period as consideration for receiving goods or services. The standard also requires companies to account for stock options granted to non-employees based on the fair value of either the stock options or the goods or services received. In the balance sheet, the stock option is presented as a stock acquisition right as a separate component of equity until exercised. The standard covers equity-settled, share-based payment transactions, but does not cover cash-settled, share-based payment transactions. In addition, the standard allows unlisted companies to measure options at their intrinsic value if they cannot reliably estimate fair value.
- n. Income Taxes** - The provision for income taxes is computed based on the pretax income included in the consolidated statement of income. The asset and liability approach is used to recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax bases of assets and liabilities. Deferred taxes are measured by applying currently enacted income tax rates to the temporary differences.
- o. Reserve for Reimbursement of Deposits** - Reserve for reimbursement of deposits is provided for the deposits derecognized from the liabilities at the estimated amount of future claims for withdrawal.
- p. Leases** - As Lessor, lease revenue is recognized at the date of each lease payment according to the lease contracts. As Lessee, all finance lease transactions are capitalized to recognize lease assets and lease obligations in the balance sheet.
- q. Derivatives and Method of Hedge Accounting** - The Bank's policy is to use derivative financial instruments ("derivatives") primarily for the purpose of reducing market risks associated with its assets and liabilities. The Bank also utilizes derivatives as a part of its trading activities. Consolidated subsidiaries do not utilize any derivatives.

The Bank enters into interest rate swaps as a means of hedging its interest rate risk on certain loans and investment securities. The Bank also enters into foreign exchange forward contracts and currency swaps, futures and options to hedge exchange risk associated with its assets and liabilities denominated in foreign currencies.

The Bank applies deferred hedge accounting, which is stipulated in the "Treatment of Accounting and Auditing of Application of Accounting Standard for Financial Instruments in the Banking Industry" (the Japanese Institute of Certified Public Accountants (the "JICPA") Industry Audit Committee, Report No. 24), to the interest risk caused by its financial assets and liabilities.

In evaluating the effectiveness of a hedge, the hedged item, such as loans and deposits, and the hedge instruments, such as interest rate swaps, are

specified and evaluated regarding the hedging approach. Effectiveness of the hedging approach is evaluated by verifying the correlation of the interest fluctuation factor of the hedged item and the hedge instruments.

- r. **Accounting for Trust-type Employee Stock Ownership Incentive Plan** - The Bank introduced an incentive plan for employees named the "Employee Stock Ownership Plan Trust" (ESOP Trust) and entered into a trust agreement with trustee on November 15, 2010.

Because the Bank guarantees the liability of the ESOP Trust, the ESOP Trust is substantially a part of the Bank and is treated as the same entity for accounting purposes. Accordingly, stocks held by the ESOP Trust are recognized and treated as treasury stock and assets, liabilities and expenses of the ESOP Trust are included in the accompanying consolidated financial statements.

- s. **Per Share Information** - The weighted-average number of shares of common stock used in the computation of basic net income per share during the year excludes treasury stock held by the Bank in its own name, as well as shares of treasury stock owned by the ESOP Trust (285 thousand shares and 611 thousand shares for the years ended March 31, 2016 and 2015, respectively). The average number of common shares used in the computation was 154,921 thousand shares and 158,747 thousand shares for the years ended March 31, 2016 and 2015, respectively.

Diluted net income per share reflects the potential dilution that could occur if the outstanding stock options and convertible bonds were exercised. Diluted net income per share assumes full exercise of the outstanding stock options and convertible bonds at the beginning of the year (or at the time of grant).

Cash dividends per share presented in the accompanying consolidated statement of income are dividends applicable to the respective year including dividends to be paid after the end of the year.

- t. **Accounting Changes and Error Corrections** - In December 2009, the ASBJ issued ASBJ Statement No. 24, "Accounting Standard for Accounting Changes and Error Corrections" and ASBJ Guidance No. 24, "Guidance on Accounting Standard for Accounting Changes and Error Corrections." Accounting treatments under this standard and guidance are as follows: (1) Changes in Accounting Policies - When a new accounting policy is applied following revision of an accounting standard, the new policy is applied retrospectively unless the revised accounting standard includes specific transitional provisions, in which case the entity shall comply with the specific transitional provisions. (2) Changes in Presentation - When the presentation of financial statements is changed, prior-period financial statements are reclassified in accordance with the new presentation. (3) Changes in Accounting Estimates - A change in an accounting estimate is accounted for in the period of the change if the change affects that period only, and is accounted for prospectively if the change affects both the period of the change and future periods. (4) Corrections of Prior-Period Errors - When an error in prior-period financial statements is discovered, those statements are restated.

3 TRADING ACCOUNT SECURITIES AND INVESTMENT SECURITIES

Trading account securities at March 31, 2016 and 2015, consisted of Japanese government bonds and local government bonds.

Investment securities at March 31, 2016 and 2015, consisted of the following:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Japanese government bonds	¥ 269,218	¥ 299,044	\$2,389,226
Local government bonds	105,095	92,027	932,685
Debentures	320,576	310,561	2,845,012
Equity securities	54,651	66,657	485,010
Other securities	352,509	331,288	3,128,407
Total	¥1,102,051	¥1,099,579	\$9,780,360

The costs and aggregate fair value of securities at March 31, 2016 and 2015, were as shown in the table below. Securities below include trading account securities and investment securities.

March 31, 2016	Millions of Yen			
	Cost	Unrealized Gains	Unrealized Losses	Fair Value
Securities classified as:				
Trading:				¥ 26
Available-for-sale:				
Equity securities	¥ 36,065	¥16,806	¥ 458	52,414
Debt securities	676,833	17,901	44	694,691
Other	335,341	14,662	2,822	347,180
Held-to-maturity:				
Debt securities	198	6		205

March 31, 2015	Millions of Yen			
	Cost	Unrealized Gains	Unrealized Losses	Fair Value
Securities classified as:

March 31, 2016	Thousands of U.S. Dollars		
	Proceeds	Realized Gains	Realized Losses
Available-for-sale:			
Equity securities	\$127,520	\$33,377	\$4,162
Debt securities	200,070	2,254	0
Other	137,886	4,357	3,780
Total	\$465,495	\$39,989	\$7,951

No impairment losses on available-for-sale securities for the years ended March 31, 2016 and 2015 were recognized.

Net unrealized gain on available-for-sale securities for the years ended March 31, 2016 and 2015, consisted of the following:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Valuation differences:			
Available-for-sale securities.....	¥ 46,045	¥ 58,238	\$ 408,635
Deferred tax liabilities	(13,740)	(17,864)	(121,938)
Noncontrolling interests	(24)	(32)	(212)
Net unrealized gain on available-for sale securities.....	¥ 32,279	¥ 40,340	\$ 286,466

4 MONEY HELD IN TRUST

The carrying amounts and unrealized gains (losses) of money held in trust, as of March 31, 2016 and 2015, were as follows:

Money held in trust held for trading

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Carrying amounts.....	¥4,572	¥5,033	\$40,575
Unrealized gains (losses) credited to income	(427)	257	(3,789)

5 LOANS AND BILLS DISCOUNTED

Loans and bills discounted as of March 31, 2016 and 2015, consisted of the following:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Bills discounted	¥ 7,829	¥ 8,999	\$ 69,479
Loans on notes	77,246	81,010	685,534
Loans on deeds.....	1,534,465	1,523,316	13,617,900
Overdrafts.....	168,680	166,555	1,496,982
Total	¥1,788,221	¥1,779,883	\$15,869,905

Bills discounted are accounted for as financial transactions in accordance with JICPA Industry Audit Committee Report No. 24. The Bank has rights to sell or pledge these bills discounted. The total of the face value of bills discounted was ¥7,838 million (\$69,559 thousand) and ¥9,029 million at March 31, 2016 and 2015, respectively.

Loans and bills discounted as of March 31, 2016 and 2015, included the following loans:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Loans to obligors in bankruptcy...	¥ 2,615	¥ 1,809	\$ 23,207
Past due loans.....	53,288	56,885	472,914
Restructured loans.....	1,858	3,149	16,489
Total	¥57,763	¥61,844	\$512,628

Loans to obligors in bankruptcy represent nonaccrual loans to debtors who are legally bankrupt, which are defined in the Enforcement Ordinance for the Corporation Tax Law.

Past due loans are nonaccrual loans, which include loans classified as “possible bankruptcy” and “virtual bankruptcy.”

Nonaccrual loans are defined as loans (after the partial charge-off of claims deemed uncollectible) in which the Companies discontinue the accruing of interest income when substantial doubt is judged to exist as to the ultimate collectability of either principal or interest if they are past due for a certain period or for other reasons.

Accruing loans contractually past due three months or more are loans in which the principal or interest is three months or more past due. The Companies do not have any such loans and bills discounted.

Restructured loans, designed to assist in the recovery of the financial soundness of debtors, are loans on which the Companies granted concessions (e.g., reduction of the stated interest rate, deferral of interest payment, extension of maturity date, reduction of the face amount). Loans classified as nonaccrual loans or accruing loans contractually past due three months or more are excluded.

6 PREMISES AND EQUIPMENT

Premises and equipment as of March 31, 2016 and 2015, consisted of the following:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Buildings	¥ 7,699	¥ 6,939	\$ 68,326
Land	24,205	24,584	214,811
Leased assets.....	12	12	106
Construction in progress.....	3	1,047	26
Other	3,901	4,083	34,620
Total	¥35,822	¥36,666	\$317,909

Accumulated depreciation at March 31, 2016 and 2015, amounted to ¥36,368 million (\$322,754 thousand) and ¥36,143 million, respectively.

As of March 31, 2016 and 2015, deferred gains for tax purposes of ¥1,970 million (\$17,483 thousand) and ¥1,984 million, respectively, on premises and equipment sold and replaced with similar assets have been deducted from the cost of newly-acquired premises and equipment.

The Companies review their long-lived assets for impairment continuously. As of March 31, 2016 and 2015, the Bank recognized impairment losses of ¥199 million (\$1,766 thousand) and ¥258 million as other expense for certain idle fixed assets and assets held for sale due to the carrying amounts of the assets exceeded their recoverable amounts and the carrying amounts of the relevant assets were written down to the recoverable amount.

The Companies principally group operating assets by branch office, which is the minimum unit for management accounting, idle fixed assets and assets held for sale are individually assessed for impairment.

The recoverable amount of operating assets, idle assets and assets held for sale are measured at its net selling price determined by quotations from third-party vendors.

7 INTANGIBLE ASSETS

Intangible assets as of March 31, 2016 and 2015, consisted of the following:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Software.....	¥4,056	¥5,373	\$35,995
Other	119	119	1,056
Total	¥4,175	¥5,493	\$37,051

8 CUSTOMERS' LIABILITIES FOR ACCEPTANCES AND GUARANTEES

All contingent liabilities arising from acceptances and guarantees are reflected in “Acceptances and guarantees.” As a contra account, “Customers’ Liabilities for Acceptances and Guarantees” are shown on the asset side representing the Bank’s right of indemnity from the applicants.

9 ASSETS PLEDGED

Assets pledged as collateral and their relevant liabilities at March 31, 2016 and 2015, were as follows:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Assets pledged as collateral:			
Investment securities.....	¥173,765	¥148,943	\$1,542,110
Leased investment assets.....	1,088	2,019	9,655
Relevant liabilities to above assets:			
Deposits.....	17,198	13,052	152,626
Call money.....		30,000	
Payables under securities lending transactions.....	107,972	31,936	958,217
Borrowed money.....	20,765	21,624	184,282

In addition, investment securities and others totaling ¥37,504 million (\$332,836 thousand) and ¥38,269 million were pledged as collateral or security deposits for exchange settlement and futures contracts at March 31, 2016 and 2015, respectively.

Guarantee deposits on office space amounting to ¥390 million (\$3,461 thousand) and ¥453 million were included in other assets at March 31, 2016 and 2015, respectively.

10 LOAN COMMITMENTS

Contracts of overdraft facilities and loan commitment limits are contracts where the Companies lend to customers up to the prescribed limits in response to customers' applications for loans as long as there is no violation of any conditions in the contracts. The unused amounts within the limits totaled ¥590,436 million (\$5,239,936 thousand) at March 31, 2016, and ¥578,437 million at March 31, 2015, for these contracts. Of the above, the amounts for which the original agreement period was within a year or agreements which the Companies could cancel at any time without penalty totaled ¥576,436 million (\$5,115,690 thousand) at March 31, 2016, and ¥562,771 million at March 31, 2015.

Since many of these commitments expire without being drawn upon, the unused amount does not necessarily represent a future cash requirement. Most of these contracts have conditions that the Companies can refuse a customers' application for loans or decrease the contract limits with proper reasons (e.g., changes in financial situation, deterioration in customers' creditworthiness). At the inception of the contracts, the Companies obtain real estate, securities, etc., as collateral if considered necessary. Subsequently, the Companies perform periodic reviews of the customers' business results based on internal rules and take necessary measures to reconsider conditions in contracts and require additional collateral and guarantees, if necessary.

11 DEPOSITS

Deposits at March 31, 2016 and 2015, consisted of the following:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Current deposits.....	¥ 86,557	¥ 88,301	\$ 768,166
Ordinary deposits.....	1,522,468	1,478,168	13,511,430
Savings at notice.....	28,362	29,676	251,703
Deposits at notice.....	3,581	3,436	31,780
Time deposits.....	914,534	908,999	8,116,205
Installment savings.....	9,717	9,446	86,235
Negotiable certificates of deposit..	137,273	125,744	1,218,255
Other deposits.....	41,988	35,191	372,630
Total.....	¥2,744,484	¥2,678,966	\$24,356,443

12 BORROWED MONEY

Borrowed money as of March 31, 2016 and 2015, consisted of the following:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Borrowings from other financial institutions.....	¥29,801	¥30,527	\$264,474
Total.....	¥29,801	¥30,527	\$264,474

The weighted average interest rates of Borrowings from other financial institutions were 0.22% and 0.27% at March 31, 2016 and 2015, respectively.

Annual maturities of long-term debt as of March 31, 2016, for the next five years and thereafter were as follows:

Year Ending March 31	Millions of Yen	Thousands of U.S. Dollars
2017.....	¥22,761	\$201,996
2018.....	2,637	23,402
2019.....	1,660	14,731
2020.....	1,015	9,007
2021.....	522	4,632
2022 and thereafter.....	1,203	10,676
Total.....	¥29,801	\$264,474

Please see Note 9 for assets pledged as collateral and their relevant borrowed money.

13 BONDS WITH SUBSCRIPTION RIGHTS TO SHARES

Bonds with subscription rights to shares at March 31, 2016 and 2015, consisted of the following:

	Rate (%)	Millions of Yen		Thousands of U.S. Dollars
		2016	2015	2016
Unsecured convertible bonds with subscription rights to shares, payable in U.S. dollars, due December 2019.....	Non-interest	¥11,268	¥12,017	\$100,000
Total.....		¥11,268	¥12,017	\$100,000

Annual maturities of bonds with subscription rights to shares at March 31, 2016 were as follows:

Year Ending March 31	Millions of Yen	Thousands of U.S. Dollars
2017.....		
2018.....		
2019.....		
2020.....	¥11,268	\$100,000
2021.....		
Total.....	¥11,268	\$100,000

Outline of bonds with subscription rights to shares at March 31, 2016 were follows:

	Unsecured convertible bonds with subscription rights to shares, payable in U.S. dollars, due December 2019
Type of stock involved.....	Common stock
Issue price of stock acquisition rights.....	Gratis
Issue price of stock.....	\$4.17
Total amount of issue.....	U.S. \$100,000,000
Total amount of stock acquisition rights exercised.....	—
Percentage of stock acquisition right granted.....	100.0%
Exercise period of stock acquisition rights.....	From January 5, 2015 to December 4, 2019

Upon exercise of the subscription rights to shares from the bondholders, the bonds related to the subscription rights to shares shall be used to pay, and the value of the bonds to be used for payment shall be equal to the face value.

14 RETIREMENT AND PENSION PLANS

The Companies have severance payment plans for employees, directors and Audit & Supervisory Board members. The Bank terminated its retirement benefits plan for directors and Audit & Supervisory Board members at the Bank's general shareholders meeting held on June 26, 2012.

Under most circumstances, employees whose service with the Companies is terminated are entitled to retirement and pension benefits determined by reference to base rates of pay at the time of termination, length of service and conditions under which the termination occurs. If the termination is involuntary, caused by retirement at the mandatory retirement age or caused by death, the employee is entitled to greater payment than in the case of voluntary termination.

The liability for retirement benefits for directors and Audit & Supervisory Board members of consolidated subsidiaries is ¥44 million (\$390 thousand) and ¥41 million at March 31, 2016 and 2015, respectively.

(1) The changes in defined benefit obligation for the years ended March 31, 2016 and 2015, were as follows:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Balance at beginning of year (as previously reported).....	¥30,159	¥30,588	\$267,651
Cumulative effect of accounting change.....		(550)	
Balance at beginning of year (as restated).....	30,159	30,037	267,651
Current service cost.....	920	843	8,164
Interest cost.....	449	447	3,984
Actuarial losses.....	4,114	599	36,510
Benefits paid.....	(1,704)	(1,768)	(15,122)
Balance at end of year.....	¥33,939	¥30,159	\$301,198

(2) The changes in plan assets for the years ended March 31, 2016 and 2015, were as follows:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Balance at beginning of year	¥32,378	¥28,429	\$287,344
Expected return on plan assets...	454	294	4,029
Actuarial gains (losses)	(1,308)	2,368	(11,608)
Contributions from the employer	523	1,994	4,641
Benefits paid.....	(752)	(708)	(6,673)
Contributions to retirement benefit trust.....	3,000		26,624
Balance at end of year.....	¥34,293	¥32,378	\$304,339

(3) Reconciliation between the liability recorded in the consolidated balance sheet and the balances of defined benefit obligation and plan assets

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Funded defined benefit obligation	¥ 33,728	¥ 19,733	\$ 299,325
Plan assets	(34,293)	(32,378)	(304,339)
Total.....	(565)	(12,644)	(5,014)
Unfunded defined benefit obligation	210	10,425	1,863
Net liability (asset) arising from defined benefit obligation.....	¥ (354)	¥ (2,218)	\$ (3,141)

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Liability for retirement benefits...	¥ 8,137	¥ 10,425	\$ 72,213
Asset for retirement benefits	(8,492)	(12,644)	(75,363)
Net liability (asset) arising from defined benefit obligation.....	¥ (354)	¥ (2,218)	\$ (3,141)

(4) The components of net periodic benefit costs for the years ended March 31, 2016 and 2015, were as follows:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Service cost	¥ 920	¥ 843	\$ 8,164
Interest cost.....	449	447	3,984
Expected return on plan assets ..	(454)	(294)	(4,029)
Amortization of prior service cost	(145)	(145)	(1,286)
Recognized actuarial losses.....	196	423	1,739
Net periodic benefit costs.....	¥ 965	¥1,274	\$ 8,564

(5) Amounts recognized in other comprehensive income (before income tax effect) in respect of defined retirement benefit plans for the years ended March 31, 2016 and 2015

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Prior service cost	¥ (145)	¥ (145)	\$ (1,286)
Actuarial losses.....	(5,227)	2,192	(46,388)
Total.....	¥(5,372)	¥2,047	\$(47,674)

(6) Amounts recognized in accumulated other comprehensive income (before income tax effect) in respect of defined retirement benefit plans as of March 31, 2016 and 2015

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Unrecognized prior service cost...		¥(145)	
Unrecognized actuarial losses.....	¥5,717	490	\$50,736
Total.....	¥5,717	¥ 344	\$50,736

(7) Plan assets

a. Components of plan assets

Plan assets as of March 31, 2016 and 2015, consisted of the following:

	2016	2015
Debt investments.....	26%	33%
Equity investments.....	36	42
Cash and cash equivalents	4	3
Others.....	34	22
Total	100%	100%

b. Method of determining the expected rate of return on plan assets

The expected rate of return on plan assets is determined considering the long-term rates of return which are expected currently and in the future from the various components of the plan assets.

(8) Assumptions used for the years ended March 31, 2016 and 2015, are set forth as follows:

	2016	2015
Discount rate.....	0.6%	1.5%
Expected rate of return on plan assets.....	2.0	1.5
Expected rate of salary increases	6.2	6.2

15 EQUITY

Japanese companies are subject to the Companies Act of Japan (the “Companies Act”). The significant provisions in the Companies Act that affect financial and accounting matters are summarized below:

a. Dividends

Under the Companies Act, companies can pay dividends at any time during the fiscal year in addition to the year-end dividend upon resolution at the shareholders’ meeting. For companies that meet certain criteria such as (1) having the Board of Directors, (2) having independent auditors, (3) having the Board of Audit & Supervisory Board members, and (4) the term of service of the directors being prescribed as one year rather than the normal two-year term by its articles of incorporation, the Board of Directors may declare dividends (except for dividends-in-kind) at any time during the fiscal year if the company has prescribed so in its articles of incorporation. However, the Bank cannot do so because it does not meet all the above criteria.

The Companies Act permits companies to distribute dividends-in-kind (noncash assets) to shareholders subject to a certain limitation and additional requirements.

Semi-annual interim dividends may also be paid once a year upon resolution by the Board of Directors if the articles of incorporation of the company so stipulate. The Companies Act and the Banking Law provides certain limitations on the amounts available for dividends or the purchase of treasury stock.

b. Increases/Decreases and Transfer of Common Stock, Reserve and Surplus

The Banking Law requires that an amount equal to 20% of dividends must be appropriated as a legal reserve (a component of retained earnings) or as additional paid-in capital (a component of capital surplus), depending on the equity account charged upon the payment of such dividends until the aggregate amount of legal reserve and additional paid-in capital equals 100% of the common stock. The Companies Act also provides that common stock, legal reserve, additional paid-in capital, other capital surplus and retained earnings can be transferred among the accounts under certain conditions upon resolution of the shareholders.

c. Treasury Stock and Treasury Stock Acquisition Rights

The Companies Act also provides for companies to purchase treasury stock and dispose of such treasury stock by resolution of the Board of Directors. The amount of treasury stock purchased cannot exceed the amount available for distribution to the shareholders which is determined by a specific formula. Under the Companies Act, stock acquisition rights are presented as a separate component of equity. The Companies Act also provides that companies can purchase both treasury stock acquisition rights and treasury stock. Such treasury stock acquisition rights are presented as a separate component of equity or deducted directly from stock acquisition rights.

16 STOCK OPTIONS

The stock options outstanding as of March 31, 2016, were as follows:

Stock Option	Persons Granted	Number of Options Granted	Date of Grant	Exercise Price	Exercise Period
2012 Stock Option	9 directors (excluding outside directors) of the Bank	179,700 shares	August 6, 2012	¥1 (\$0.01)	From August 7, 2012 to August 6, 2042
2013 Stock Option	10 directors (excluding outside directors) of the Bank	144,800 shares	August 19, 2013	¥1 (\$0.01)	From August 20, 2013 to August 19, 2043
2014 Stock Option	8 directors (excluding non-permanent directors) and 8 executive officers of the Bank	162,100 shares	August 18, 2014	¥1 (\$0.01)	From August 19, 2014 to August 18, 2044
2015 Stock Option	7 directors (excluding non-permanent directors) and 7 executive officers of the Bank	106,700 shares	August 17, 2015	¥1 (\$0.01)	From August 18, 2015 to August 17, 2045

The stock option activity during the year ended March 31, 2016, was as follows:

Year Ended March 31, 2016	2012 Stock Option	2013 Stock Option	2014 Stock Option	2015 Stock Option
	(Shares)	(Shares)	(Shares)	(Shares)
<u>Non-vested</u>				
March 31, 2015- Outstanding	134,700	130,200	162,100	
Granted				106,700
Canceled				
Vested	61,300	49,700	58,700	
March 31, 2016- Outstanding	73,400	80,500	103,400	106,700
<u>Vested</u>				
March 31, 2015- Outstanding				
Vested	61,300	49,700	58,700	
Exercised	61,300	49,700	58,700	
Canceled				
March 31, 2016- Outstanding				
Exercise price	¥1 (\$0.01)	¥1 (\$0.01)	¥1 (\$0.01)	¥1 (\$0.01)
Average stock price at exercise	¥527	¥527	¥529	—
Fair value price at grant date	¥215	¥279	¥359	¥521

The Assumptions Used to Measure the Fair Value of the 2015 Stock Option

Estimate method:	Black-Scholes option pricing model
Volatility of stock price:	29.80%
Estimated remaining outstanding period:	Four years and one month
Estimated dividend:	¥7 per share
Risk free interest rate:	0.07%

17 INCOME TAXES

The Companies are subject to Japanese national and local income taxes which, in the aggregate, resulted in a normal effective statutory tax rates of approximately 32.8% and 35.3% for the years ended March 31, 2016 and 2015, respectively.

The tax effects of significant temporary differences which resulted in deferred tax assets and liabilities at March 31, 2016 and 2015, were as follows:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Deferred tax assets:			
Reserve for possible loan losses...	¥ 9,045	¥ 9,284	\$ 80,271
Liability for employees' retirement benefits	3,015	1,625	26,757
Depreciation	1,948	1,772	17,287
Other	3,985	4,366	35,365
Less valuation allowance	(6,473)	(7,676)	(57,445)
Total	11,520	9,372	102,236
Deferred tax liabilities:			
Unrealized gain on available-for-sale securities	(13,740)	(17,864)	(121,938)
Unrealized gain on employees' retirement benefit trust	(1,599)	(1,683)	(14,190)
Other	(50)	(56)	(443)
Total	(15,390)	(19,604)	(136,581)
Net deferred tax assets (liability)...	¥ (3,870)	¥(10,232)	\$ (34,345)

A reconciliation between the normal effective statutory tax rates and the actual effective tax rates reflected in the accompanying consolidated statement of income for the year ended March 31, 2016, with the corresponding figures for 2015 was as follows:

	2016	2015
Normal effective statutory tax rate	32.8%	35.3%
Expenses not deductible for income tax purposes ..	0.5	0.8
Income not taxable for income tax purposes	(0.7)	(1.1)
Effect of change in tax rate	2.2	3.2
Valuation allowance	(5.7)	(1.6)
Other-net	0.6	1.5
Actual effective tax rate	29.7%	38.1%

New tax reform laws enacted in 2016 in Japan changed the normal effective statutory tax rate for the fiscal year beginning on or after April 1, 2016 and 2017, to approximately 30.6% and for the fiscal year beginning on or after April 1, 2018, to approximately 30.4%. The effect of these changes was to decrease deferred tax assets and deferred tax liabilities by ¥533 million (\$4,730 thousand) and ¥807 million (\$7,161 thousand), respectively, and increase unrealized gain on available-for-sale securities by ¥721 million (\$6,398 thousand) and land revaluation surplus by ¥253 million (\$2,245 thousand), with a decrease of ¥253 million (\$2,245 thousand) in related deferred tax liability, in the consolidated balance sheet as of March 31, 2016, and to increase income taxes—deferred in the consolidated statement of income for the year then ended by ¥328 million (\$2,910 thousand).

18 OTHER COMPREHENSIVE INCOME (LOSS)

The components of other comprehensive income (loss) for the years ended March 31, 2016 and 2015, were as follows:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Unrealized gain (loss) on available-for-sale securities:			
Gains arising during the year ...	¥ (8,887)	¥26,432	\$ (78,869)
Reclassification adjustments to profit or loss	(3,305)	(1,478)	(29,330)
Amount before income tax effect	(12,193)	24,954	(108,209)
Income tax effect	4,124	(6,605)	36,599
Total	¥ (8,069)	¥18,348	\$ (71,609)
Deferred gain (loss) on derivatives under hedge accounting:			
Losses arising during the year ...	¥ (348)	¥ (301)	\$ (3,088)
Reclassification adjustments to profit or loss	382	411	3,390
Amount before income tax effect	34	110	301
Income tax effect	(38)	(95)	(337)
Total	¥ (3)	¥ 15	\$ (26)
Land revaluation excess:			
Reclassification adjustments to profit or loss			
Amount before income tax effect			
Income tax effect	¥ 253	¥ 534	\$ 2,245
Total	¥ 253	¥ 534	\$ 2,245
Defined retirement benefit plans:			
Adjustments arising during the year	¥ (5,423)	¥ 1,768	\$ (48,127)
Reclassification adjustments to profit or loss	50	278	443
Amount before income tax effect	(5,372)	2,047	(47,674)
Income tax effect	1,630	(735)	14,465
Total	¥ (3,741)	¥ 1,311	\$ (33,200)
Total other comprehensive income (loss)	¥(11,560)	¥20,209	\$(102,591)

19 CASH AND CASH EQUIVALENTS

The reconciliation of cash and due from banks in the consolidated balance sheet to cash and cash equivalents at March 31, 2016 and 2015, was as follows:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Cash and due from banks	¥180,909	¥100,784	\$1,605,511
Less deposits in other banks except for the Bank of Japan	(496)	(1,337)	(4,401)
Cash and cash equivalents, end of year	¥180,413	¥ 99,446	\$1,601,109

20 FINANCIAL INSTRUMENTS AND RELATED DISCLOSURES

(1) Bank Policy for Financial Instruments

The Bank's operations mainly include accepting deposits, providing loans, discounting bills, and buying and selling marketable securities and other financial instruments. Through these activities, the Bank holds substantial financial assets and financial liabilities that are subject to fluctuations in interest rates. To

protect itself from the negative effects of interest rate fluctuations, the Bank conducts derivative transactions as part of its asset and liability management (ALM) activities.

In addition, the consolidated subsidiaries that engage in leasing and credit card businesses handle financial instruments as their principal business.

(2) Nature and Extent of Risks Arising from Financial Instruments

Of the principal financial assets held by the Companies, loans are subject to credit risk, or default on the part of the customer. The Companies hold trading account securities and investment securities, for holding to maturity and for purely trading purposes, as well as to promote business activities. These securities are subject to issuer credit risk, interest rate fluctuation risk and market price fluctuation risk.

Of financial liabilities, deposits and borrowed money are subject to liquidity risk, or the possibility that the Companies may become unable to meet payment obligations when due in the event that they become unable to utilize markets in certain circumstances.

Among derivative transactions, the Bank employs interest rate swap transactions to hedge risk using ALM. To offset the risk of interest rate increases, the Bank employs variable receipt/fixed payment interest rate swap transactions on loans bearing long-term, fixed rates of interest, and securities.

With respect to currencies, the Bank employs currency swap transactions, forward exchange contracts and coupon swap transactions, primarily to hedge the exchange rate fluctuation risks on foreign currency assets and liabilities.

The Bank engages in bond futures transactions, mainly as part of its dealing operations. With regard to the methods of hedge accounting for interest risks on financial assets and liabilities, the Bank employs deferred hedge accounting as provided in JICPA Industry Audit Committee Report No. 24. To evaluate hedging effectiveness, for hedges designed to offset market fluctuations, the Bank performs specified evaluations of hedged loans at individual hedge stages grouped by (remaining) term.

The consolidated subsidiaries do not conduct derivative transactions.

(3) Risk Management for Financial Instruments

Credit risk management

The Bank has in place various provisions, including a Credit Risk Management Policy and Credit Risk Management Provisions. These provisions, which extend beyond lending activities and include market transactions and off-balance-sheet assets, are in place to manage credit risks related to all manner of banking operations. For each activity, the Bank conducts credit screenings, manages credit limits, manages credit information and employs an internal rating system. The Bank also has in place a credit management system to support management improvements and handle loans that have become delinquent or present collection difficulties. The consolidated subsidiaries also have in place various credit risk management and other provisions. They act in accordance with these provisions to manage credit risks appropriately.

To manage these credit risks, the Companies have established credit risk management divisions, including screening divisions, credit management divisions and problem loan management divisions. The Bank's Credit Risk Management Division takes overall responsibility for credit risk management, including the status of credit risk and accompanying problems.

With regard to credit screening, the Bank's Audit Division checks the Loan Division and consolidated subsidiaries' risk management divisions to ascertain the appropriateness of credit risk management.

Market risk management

The Bank has in place a system for managing market risk. All items that require market risk management, including deposit and loan transactions, market transactions and off-balance-sheet transactions, are managed in accordance with the Bank's Market Risk Management Policy and Market Risk Management Provisions. The ALM divisions manage market risk related to deposits

and loans, while market-related divisions mainly manage market risk related to market transactions. The Bank's Risk Management Division provides comprehensive reports to the ALM Risk Management Committee indicating risk amounts, stress test results and other information. Market Risk Management Policies and Provisions are also in place at consolidated subsidiaries, in line with each company's risk profile. In this manner, systems are in place to ensure the appropriate management of market risk.

The market risk management divisions of the Companies manage market risks in this way and the Bank's Risk Management Division serves as the central division for the management of market risk and addressing related problems.

With regard to audits of market risk management, the Audit Division performs checks to determine the appropriateness of market risk management.

(Quantitative information concerning market risks)

Major financial instruments held by the Bank, which are subject to the primary risk parameters such as interest rate risk and price fluctuation risk, are loans, securities (held-to-maturity debt securities and other securities), deposits and negotiable certificates of deposit, and interest rate swap transactions in derivative transactions.

For these financial assets and financial liabilities, the Bank estimates the amount of loss that they will have after specific periods of time by using a statistical method and assumes it as the market risk quantities. Also, the bank employs it as a quantitative analysis to manage the risk of interest rate and price fluctuation. Value at Risk (VaR) is used to calculate the impact amount.

A historical simulation model has been adopted for the current fiscal year to measure VaR. The conditions are an observation period of 1,250 business days, a confidence interval of 99%, and a holding period of 60 business days (125 business days for strategic holdings).

As of March 31, 2016, the Bank's market risk (estimated loss value) on major financial instruments was ¥31,847 million (\$282,632 thousand). Of this amount, ¥21,759 million (\$193,104 thousand) was attributable to securities and ¥10,087 million (\$89,518 thousand) was attributable to instruments other than securities, such as deposits and loans.

The Bank also conducts back-testing, comparing the VaR calculated using this model with actual profits or losses. During the consolidated fiscal year under review, back-testing demonstrated that its approximation model was sufficiently precise to capture market risk.

However, it is important to recognize that VaR estimation is a calculation based on a statistical process, and that results may differ depending on the preconditions and calculation methods used. Further, this process does not forecast maximum losses, and future market conditions may differ substantially from past conditions.

Furthermore, quantitative analysis is not applied to certain financial instruments whose impact is immaterial or those held by consolidated subsidiaries.

Liquidity risk management

The Bank manages liquidity risk in accordance with its Liquidity Risk Management Policy and Liquidity Risk Management Provisions. The Market Financing Division manages cash on a daily basis, and the Risk Management Division, which serves as the management division, monitors this risk, providing comprehensive reports to the ALM Risk Management Committee including the status of risks, the status of assets available for payment, the results of stress tests and other information.

With regard to audits of liquidity risk management, the Audit Division checks to determine the appropriateness of liquidity risk management conducted by the Market Financing Division and Risk Management Division.

(4) Fair Values of Financial Instruments

Fair values of financial instruments are based on quoted prices in active markets. If a quoted price is not available, another rational valuation technique is used instead. Please see Note 21 for the details of fair value for derivatives.

(*2) Derivative instruments are disclosed in the net amount of assets and liabilities.

Cash and Due from Banks

With regard to amounts due from banks that have not matured and short-term due from banks, as these instruments are settled within a short term and their fair value and book value are nearly identical, their book value is assumed to be their fair value. Long-term due from banks with maturities are segmented according to deposit period, and fair value is calculated by discounting them to their present value, using an assumed rate of interest on new amounts due from banks of the same type.

Investment Securities

The fair value of equity securities is determined by their prices on stock exchanges. The fair value of bonds is determined by their prices on exchanges or at rates indicated by financial institutions handling these transactions for the Bank. The fair value of investment trusts is based on the base value publicly disclosed.

Privately placed bonds guaranteed by the Bank are segmented according to internal rating and term, and fair value is determined by discounting the total amount of principal and interest by the assumed interest rate on new issue bonds of the same type.

For information pertaining to investment securities by holding purpose, please refer to Note 3.

Loans and Bills Discounted

As loans with floating rates of interest reflect market rates of interest in the short term, unless credit conditions of the lending entity have changed significantly after lending the loans, their fair value and book value are nearly identical, so their book value is assumed to be their fair value. Fixed-rate loans are segmented by loan type, internal rating and period, and their fair value is determined by discounting the total amount of principal and interest by the assumed interest rate on new lendings of the same type. However, for items with a short commitment term (within three months), as their fair value and book value are nearly identical, their book value is assumed as their fair value.

The fair value of loans lent to entities that are classified as legal bankruptcy, virtual bankruptcy or possible bankruptcy are determined according to the current value of expected future cash flows or the amount of collateral that is expected to be recoverable or guarantee amounts that are determined to be recoverable. As these amounts are nearly identical to the book value after deducting the allowance for doubtful accounts, these amounts are assumed as their fair value.

For loans that are fully secured by collateral and that have no specified repayment term, since, in terms of their expected repayment periods and interest conditions their fair value and book value are nearly identical, their book value is assumed to be their fair value.

Deposits

For demand deposits, fair value is assumed to be the amount to be paid when demanded on the balance sheet date (i.e., the book value). The fair value of time deposits is determined by segmenting such deposits by term and discounting future cash flows to their current value. The discount rate used is the rate of interest on new deposits of the same type. As the term on deposits is short (within three months), their fair value and book value are nearly identical, so their book value is assumed as their fair value.

Call Money and Payables under Securities Lending Transactions

For items with a short commitment term (within three months), as their fair value and book value are nearly identical, their book value is assumed to be their fair value.

Borrowed Money

For borrowed money, interest rates on floating-rate borrowings reflect market interest rates in the short term. Assuming that credit conditions of the Compa-

nies have not changed significantly since the time of borrowing, their fair value and book value are nearly identical, so their book value is assumed to be their fair value. Such borrowings with fixed interest rates are segmented by term, the total amount of principal and interest on the borrowed money is divided by time period, and their present value is calculated by discounting according to the assumed interest rate. For items with a short commitment term (within three months), as their fair value and book value are nearly identical, their book value is assumed to be their fair value.

Derivatives

Fair value information for derivatives is included in Note 21.

21 DERIVATIVES

It is the Bank's policy to use derivative financial instruments ("derivatives") primarily for the purpose of reducing market risks associated with its assets and liabilities.

The Bank enters into interest rate swaps as a means of hedging its interest rate risk on certain loans and investment securities. The Bank also enters into foreign exchange forward contracts and currency swaps to hedge exchange risk associated with its assets and liabilities denominated in foreign currencies.

Derivatives are subject to market risk and credit risk. Market risk is the exposure created by potential fluctuations of market conditions, including interest and foreign exchange rates. Credit risk is the possibility that a loss may result from a counterparty's failure to perform under a contract. Because the counterparties to these derivatives are limited to major financial institutions and securities companies, the Bank does not anticipate material losses arising from credit risk.

Concerning risk management associated with derivative transactions, the front and back offices of the trading divisions (the Market Financing Division) are clearly separated, while the Asset and Liabilities Management Office synthetically manages the Bank's market risks. In this manner, an internal monitoring system is effectively secured. Derivative transactions entered into by the Bank have been made in accordance with internal policies, which regulate the trading activities, and credit risk management has formal risk limits and credit lines. The Bank's gains and losses on positions and other conditions are periodically reported to management.

22 SEGMENT INFORMATION

Under ASBJ Statement No. 17, "Accounting Standard for Segment Information Disclosures" and ASBJ Guidance No. 20, "Guidance on Accounting Standard for Segment Information Disclosures," an entity is required to report financial and descriptive information about its reportable segments. Reportable segments are operating segments or aggregations of operating segments that meet specified criteria. Operating segments are components of an entity about which separate financial information is available and such information is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. Generally, segment information is required to be reported on the same basis as is used internally for evaluating operating segment performance and deciding how to allocate resources to operating segments.

(1) Description of Reportable Segments

The Companies' reportable segments are those for which separate financial information is available and regular evaluation by the Board of Directors is being performed in order to decide how management resources are allocated and in assessing performance. The Companies concentrate on the banking business, and also conduct other financial services including the leasing and the credit-card business. Therefore, the Companies' reportable segments consist of Banking and Lease.

(2) Methods of Measurement for the Amounts of Ordinary Income, Profit, Assets and Other Items for Each Reportable Segment

The accounting policies of each reportable segment are consistent with those disclosed in Note 2, "Summary of Significant Accounting Policies."

Impairment losses of assets.....	1,766		1,766		1,766		1,766

Notes: 1. The "Other" segment contains businesses that are not included in these reporting segments, such as the credit card business.

2. Adjustment amounts for the years ended March 31, 2016 and 2015, were as follows:

- (1) A downward reconciliation in ordinary income from external customers of ¥143 million (\$1,269 thousand) and ¥64 million was made to the adjust gain on reversal of reserve for possible loan losses.
- (2) Segment profit reconciliations of ¥14 million (\$124 thousand) and ¥3 million were made to eliminate intersegment transactions.
- (3) A downward reconciliation in segment assets of ¥18,461 million (\$163,835 thousand) and ¥16,040 million was made to eliminate intersegment transactions.
- (4) A downward reconciliation in depreciation of ¥4 million (\$35 thousand) and ¥3 million was made to eliminate intersegment transactions.
- (5) A downward reconciliation in total interest income of ¥519 million (\$4,605 thousand) and ¥463 million was made to eliminate intersegment transactions.
- (6) A downward reconciliation in total interest expenses of ¥65 million (\$576 thousand) and ¥71 million was made to eliminate intersegment transactions.
- (7) A downward reconciliation in increase in premises and equipment and intangible assets of ¥3 million (\$26 thousand) and ¥5 million was made to eliminate intersegment transactions.

3. Segment profit is reflected as an adjustment to ordinary profit.

4. Ordinary profits, ordinary income and ordinary expenses are defined as follows:

"Ordinary profits" means "Ordinary income" less "Ordinary expenses."

"Ordinary income" represents total income less certain special income included in other income in the accompanying consolidated statement of income for the year ended March 31, 2016.

"Ordinary expenses" represents total expenses less certain special expenses included in other expenses in the accompanying consolidated statement of income for the years ended March 31, 2016 and 2015.

(2) Geographical Information

(a) Ordinary income

Ordinary income from external domestic customers exceeded 90% of total ordinary income on the consolidated statement of income for the years ended March 31, 2016 and 2015; therefore, geographical ordinary income information is not presented.

(b) Premises and equipment

The balance of domestic premises and equipment exceeded 90% of total balance of premises and equipment in the consolidated balance sheet at March 31, 2016 and 2015; therefore, geographical premises and equipment information is not presented.

(3) Major Customer Information

Ordinary income from a specific customer did not reach 10% of total ordinary income in the consolidated statement of income for the years ended March 31, 2016 and 2015; therefore, major customer information is not presented.

23 RELATED PARTY TRANSACTIONS

Significant related party transactions for the years ended March 31, 2016 and 2015, were as follows:

Related Party	Account Classification	Transactions for the Year		Balance at End of Year	
		Millions of Yen	Thousands of U.S. Dollars	Millions of Yen	Thousands of U.S. Dollars
		2016		2016	
Tamanoyu Co., Ltd.	Loans and bills discounted	¥ 19	\$ 168	¥ 30	\$ 266
Tamanoyu Sangyou Co., Ltd.	Loans and bills discounted	123	1,091	114	1,011

- Notes: 1. A director of the Bank and its close relatives own 100% of voting rights of Tamanoyu Co., Ltd. and Tamanoyu Sangyou Co., Ltd.
2. Terms are substantially the same as for similar transactions with third parties.
3. Amounts of transactions were reported at the average balance for the period.

Related Party	Account Classification	Transac- tions for the Year	Balance at End of Year
		Millions of Yen	Millions of Yen
		2015	2015
Tamanoyu Co., Ltd.	Loans and bills discounted	¥ 36	¥ 30
Tamanoyu Sangyou Co., Ltd.	Loans and bills discounted	142	132

- Notes: 1. The close relatives of a director of the Bank own 100% of voting rights of Tamanoyu Co., Ltd. and Tamanoyu Sangyou Co., Ltd.
2. Terms are substantially the same as for similar transactions with third parties.
3. Amounts of transactions were reported at the average balance for the period.

24 NET INCOME PER SHARE

Reconciliation of the differences between basic and diluted net income per share ("EPS") for the years ended March 31, 2016 and 2015, was as follows:

	Millions of Yen	Thousands of Shares	Yen	U.S. Dollars
	Net Income Attributable to Owners of the Parent	Weighted-Average Shares	EPS	
Year Ended March 31, 2016				
Basic EPS—Net income available to common shareholders.....	¥9,736	154,921	¥62.84	\$ 0.55
Effect of dilutive securities:				
Stock Option.....		24,339	(8.53)	(0.07)
Diluted EPS—Net income for computation	¥9,736	179,260	¥54.31	\$ 0.48
Year Ended March 31, 2015				
Basic EPS—Net income available to common shareholders.....	¥9,664	158,747	¥60.88	
Effect of dilutive securities:				
Stock Option.....		7,189	(2.64)	
Diluted EPS—Net income for computation	¥9,664	165,936	¥58.24	

As noted in Note 2.b, the Bank applied the revised accounting standard and guidance for (a) transactions with noncontrolling interest, (b) presentation of the consolidated balance sheet, (c) presentation of the consolidated statement of income, and (e) acquisition-related costs, effective April 1, 2015, and (d) provisional accounting treatments for a business combination which occurred on or after April 1, 2015.

As a result, basic and diluted EPS for the year ended March 31, 2016, decreased by ¥19.51 (\$0.17) and ¥16.86 (\$0.14), respectively.

25 SUBSEQUENT EVENT

At the Bank's general shareholders meeting held on June 28, 2016, the Bank's shareholders approved the following:

Appropriations of Retained Earnings

	Millions of Yen	Thousands of U.S. Dollars
Year-end cash dividends, ¥3.50 (\$0.03) per share	¥550	\$4,881

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of THE OITA BANK, Ltd.:

We have audited the accompanying consolidated balance sheet of THE OITA BANK, LTD. (the "Bank") and its consolidated subsidiaries as of March 31, 2016, and the related consolidated statements of income, comprehensive income, changes in equity, and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information, all expressed in Japanese yen.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of THE OITA BANK, LTD. and its consolidated subsidiaries as of March 31, 2016, and the consolidated results of their operations and their cash flows for the year then ended in accordance with accounting principles generally accepted in Japan.

Convenience Translation

Our audit also comprehended the translation of Japanese yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made in accordance with the basis stated in Note 1 to the consolidated financial statements. Such U.S. dollar amounts are presented solely for the convenience of readers outside Japan.
